EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicants' representative, William Epstein on March 17, 2004.

The application has been amended as follows: claims 1-55 and 64-72 have been cancelled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: applicants claim a polyethylene glycol aldehyde and a process for preparing the same. The closest prior art of record, however, fails to teach or fairly suggest the compound claimed herein by applicants; as such, the process for preparing said aldehyde is found unobvious in view of the prior art of record.

Applicants have filed a terminal disclaimer to obviate a potential obviousness-type double patenting rejection over co-pending application 10/431,294, which has already been allowed. The terminal disclaimer has been approved and made of record in the present application; the instant claims are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
